Qualities

- Serious
- Independent
- Curious
- Attentive
- Creative

Leisure

- Handball
- Travel/Hiking
- Music
- Computers
- Video games

Alongside my university studies, I'm pursuing my passion for web development and digital creation through various projects. I enjoy creating websites and interfaces that combine technical expertise, design and user experience, whilst continuing to learn and improve my skills.

Educational Background

MASTER CMW (Cultures et Métiers du Web)

Université Gustave Eiffel – Champs-sur-Marne
Septembre 2026 – Juin 2028

BUT MMI (Multimedia and Internet Profession)

Blois University Institute of Technology
September 2023 – June 2026

- "Web Development and Interactive Devices" course

Technical Baccalaureate "STI2D"

La Providence Campus – Blois
September 2020 – June 2023

- "SIN (Information Systems and Digital Technology)" course
- Grade: Good

Experiences

Webmaster Trainee – Phoenix OCP

September 2023 – July 2026

Managing and updating websites and web tools, creating graphic and audiovisual content, designing UX/UI mock-ups and producing tutorials. Providing user support and contributing to the company's digital transformation projects.

Member of the NNHBC association board

September 2023 – July 2026

I create content and posts for my handball club's social media accounts. I am also involved as a handball referee and help train young players.

Web Development Internship

13 April – 3 July 2026

During my work placement at Au Petit Madère, I carried out a complete redesign of the website, which is used to showcase the holiday cottages and manage enquiries regarding availability.

Geneva International Exhibition of Inventions

April 17 – 21 2024
